24-25 July 2024 (in-person meeting)

Beirut, Lebanon

INFORMATION NOTE

I. BACKGROUND

The United Nations Economic and Social Commission for Western Asia (ESCWA) developed the Climate/SDGs Debt Swap – Donor Nexus Initiative to address the challenges of reducing debt service burdens, improving climate finance and accelerating the implementation of the Paris Agreement and the 2030 Agenda for Sustainable Development. The Initiative helps Governments to design climate/SDGs debt swap programmes, which ensure addressing national priorities while contributing to achieving global climate objectives. The programme establishes a key performance indicators framework for monitoring and evaluation to assess impacts at the project level and programme level with transformational impact on climate and the SDGs. The Initiative has been supported by the Open Society Foundations since 2023.
